### Tutor biography

Peter Forster's research concerns the molecular population genetics of humans. Born in 1967, he studied chemistry at the universities of Kiel and Hamburg, specialised in genetics at the Heinrich-Pette-Institute of Virology and Immunology in Hamburg and received his PhD in Biology in 1997. After postdoctoral research at the Institute of Legal Medicine in Muenster until 1999, he was appointed a Fellow at the McDonald Institute for Archaeological Research in Cambridge. From 2006-2009 he was a university senior lecturer in forensics and life sciences. Peter Forster is currently Director of Research at the Institute for Forensic Genetics in Muenster (Germany), Vice-President of CSAR (based at Churchill College, Cambridge), and an editor of the International Journal of Legal Medicine (Springer, Heidelberg).

Peter Forster has co-developed phylogenetic network analysis of mitochondrial DNA, Y-chromosomal DNA, and linguistic data. He also specialises in DNA ancestry tests. In 2011, the Cambridge Philosophical Society awarded Dr. Peter Forster the William Bate Hardy Prize for his work on human origins, jointly with Dr. Beverley Glover (plant sciences). In 2013 he was elected a lifelong member of the German National Academy of Sciences, and in 2016 a Fellow of the Royal Society of Biology.

## Course programme

---

### Friday

Please plan to arrive between 16:30 and 18:30. You can meet other course members in the bar which opens at 18:15. Tea and coffee making facilities are available in the study bedrooms.

19:00	Dinner
20:30 – 22:00	Course Introduction. Lecture: DNA and world prehistory
22:00	Terrace bar open for informal discussion

### Saturday

07:30	Breakfast
09:00 – 10:30	Introduction to DNA
10:30	Coffee
11:00 – 12:30	mtDNA profiling
13:00	Lunch
14:00 – 16:00	Free
16:00	Tea
16:30 – 18:00	Y chromosomal profiling
18:00 – 18:30	Free
18:30	Dinner
20:00 – 21:30	African and Australian prehistory
21:30	Terrace bar open for informal discussion

### Sunday

07:30	Breakfast
09:00 – 10:30	European, Asian and American prehistory
10:30	Coffee
11:00 – 12:30	British Origins
12:45	Lunch

**The course will disperse after lunch**

---

## Course syllabus

---

### Aims:

As a result of the course the student should:

- Acquire a working knowledge of DNA profiling techniques.
- Be informed on the prehistory of each inhabited continent.
- Be proficient in traditional and new views on British ancestry.

### Content:

DNA and world prehistory: Using mtDNA and Y chromosomal DNA to trace the human species from its African origin some 200,000 years ago to the current spread of peoples, races and languages across the world.

Continent-specific prehistory: Explaining how ancient DNA and modern DNA fits with archaeological and linguistic theories on the population prehistory of each inhabited continent.

British Origins: Piecing together linguistic, archaeological and genetic evidence to build a picture of British origins.

### Presentation of the course:

The course consists primarily of lectures.

### Outcomes:

**As a result of the course, within the constraints of the time available, students should be able to:**

1. Outline the prehistoric events leading to the genetic variation seen in humans today,
2. Explain the biological fundamentals of mitochondrial and nuclear DNA,
3. Explain the origins of Africans, Australians, Eurasians and Amerinds, in the light of DNA,
4. Form an opinion on the origins of the British based on DNA, chronicles and linguistics.

---

## Reading and resources list

---

Listed below are a number of texts that might be of interest for future reference, but do not need to be bought (or consulted) for the course.

---

Author	Title	Publisher and date
Colin Renfrew & Paul Bahn	<i>The Cambridge World Prehistory</i>	Cambridge University Press 2014

## Website addresses

**Note** Students of the Institute of Continuing Education are entitled to 20% discount on books published by Cambridge University Press (CUP) which are purchased at the Press bookshop, 1 Trinity Street, Cambridge (Mon-Sat 9am – 5:30pm, Sun 11am – 5pm). A letter or email confirming acceptance on to a current Institute course should be taken as evidence of enrolment.
