Stonehenge: a landscape through time

**Start date** 13 December 2019  
**End date** 15 December 2019

**Venue**  
Madingley Hall  
Madingley  
Cambridge

**Tutor** Professor David Jacques  
**Course code** 1920NRX019

**Director of Academic Centres** Sarah Ormrod

**For further information on this course, please contact**  
Head of Academic Centre Administration, Zara Kuckelhaus

**To book** See: www.ice.cam.ac.uk or telephone 01223 746262

---

**Tutor biography**

**David Jacques** field of research explores the use of the Stonehenge landscape in the Mesolithic period (8500BC-4000BC). Since 2005 he has been the Project Director of an internationally significant Mesolithic archaeological site, one mile from Stonehenge. His team has discovered the oldest occupation site in the Stonehenge area, the likely place where the communities who built the first monuments at Stonehenge lived. These discoveries have contributed significantly to a new understanding of the initial settlement patterns and practices in the Stonehenge landscape. In 2013 he was elected a Fellow of the Society of the Antiquaries (FSA) in recognition of the importance of these discoveries.

In 2010 David Jacques won an Open University Teaching Prize for his work at Vespasian’s Camp and the ways he involved that with his students learning. His project at Stonehenge was nominated ‘Research Project of the Year 2013’ by Current Archaeology Magazine, and was runner-up to Leicester University’s discovery of Richard III. Under David Jacques’s direction, the team’s work has also featured on BBC 4’s ‘Flying Archaeologist’ series, regional BBC and ITV output, and has been extensively reported in the press.

As a Fulbright alumnus, David Jacques has worked extensively to improve the education system of the Republic of Georgia, setting up and running a charity which stimulated an investment of $12 million into the Georgian education system between 2005-08. In 2011, he was chosen as one of two ‘Outstanding’ British Fulbright Teacher Program alumni of the past 60 years.
Course programme
Friday
Please plan to arrive between 16:30 and 18:30. You can meet other course members in the bar which opens at 18:15. Tea and coffee making facilities are available in the study bedrooms.
19:00 Dinner
20:30 Ways of understanding Stonehenge and its landscape through history
22:00 Terrace bar open for informal discussion

Saturday
07:30 Breakfast
09:00 The post-glacial occupation of Salisbury Plain - Mesolithic
10:30 Coffee
11:00 The early to mid Neolithic at Stonehenge - Neolithic Monuments: first phases of Stonehenge, Long Barrows, the early Henges, The Cursus, latest developments
13:00 Lunch
14:00 Free
16:00 Tea
16:30 The later Neolithic - Stonehenge phase 3, Durrington Walls, the Avenue, new approached to evaluating where the people came from
18:00 Free
18:30 Dinner
20:00 Bronze and Iron Age – later phases of Stonehenge, Round Barrows, defended sites 'hillforts', Roman period
21:30 Terrace bar open for informal discussion

Sunday
07:30 Breakfast
09:00 New approaches to evaluating Use of Animals in the Stonehenge Landscape in the Prehistoric Periods
10:30 Coffee
11:00 Overview – Stonehenge: A landscape through time
12:45 Lunch

The course will disperse after lunch
Course syllabus

Aims:

1. To offer a broadly chronological survey of Stonehenge and its environs between 7500-2000BC.
2. To enable students to place their own research interests within the broader context of developments in human society/culture since the end of the last Ice Age.
3. To gain understanding of the new evidence for the first humans to occupy the Stonehenge landscape during the Mesolithic period (7500-4000BC) and how that affects our understanding of the later Neolithic and Bronze Age monumentalising of the area.

Content:

The research work already undertaken in and around Blick Mead indicates that a significant gap in our knowledge of the Stonehenge landscape’s ‘backstory’ is in the process of being filled. The range and intensity of the material already recovered is one of the largest and most dense accumulations of Mesolithic material in the country. The course content will provide an opportunity to explore diverse issues relating to the Mesolithic traditions. These include, but are not limited to, landscape use, patterns of mobility, settlement organisation, the social significance and roles of flint-working and flint tool use, the social roles of hunting and animals, raw material selection and concepts of materiality and domestic and ceremonial practices. This section of the course will contribute to a wider understanding of the sense of place, ritual and memory hunter-gatherer societies may have had.

The course will also examine the early Neolithic monumentalisation of the area – The Coneybury Anomaly, the Cursus, the long barrows and the first phases of Stonehenge. We will then examine the landscape in its Bronze and Iron Age phases, in particular the later buildings of Stonehenge, the round barrows, and examine the development of the defended hillfort sites during the Iron Age. It will discuss the ‘big questions’ about Stonehenge and its landscape: Why is it where it is? What was it for? And where did the people come from who first used the landscape in the Mesolithic and who later built and used the Neolithic and Bronze Age monuments?

Presentation of the course:
Class discussion (very important!), practical work, problem solving exercises, lecture and seminar formats (involving power points).

As a result of the course, within the constraints of the time available, students should be able to:

1. Assess the wider Mesolithic contexts in terms of the research issues raised in English Heritage’s ‘Stonehenge World Heritage Site Research Framework’ agenda.
2. Demonstrate an understanding how the movement of people and ideas in the Stonehenge World Site area across seven millennia between 8500BC- 500BC contributed to the establishment of the area’s renowned ceremonial character.
3. Demonstrate their understanding in ways that connects to up to date narratives about the biography of the Stonehenge landscape.
